My name is Syaid Abdurrohman. Im Website Developer with 2+ years of experience building responsive, high-performing web interfaces, including campaign landing pages and data-driven dashboards. Delivered 7+ landing pages and 2 production dashboards in agency and corporate environments, with a strong focus on creative UI, usability, and performance using React, Next.js, and modern CSS.

Experience

Web Developer – VML Indonesia

March 2025 – December 2025

- Developed campaign landing pages for national brands (Dancow, Geely Auto Indonesia), focusing on responsive UI, visual storytelling, and performance optimization.
- Built interactive landing pages such as Growth Tracker, enabling personalized product recommendations based on user input.
- Collaborated with designers and strategists to translate Figma designs into production-ready components.
- Proposed and prototyped innovative initiatives including P(AI)ntedTrip and KitKat “Break The Tab” browser extension.
- Implemented automated testing and CI/CD pipelines, improving release reliability and overall product quality.

Frontend Developer – SCCIC ITB

October 2024 – February 2025

- Developed a transportation data monitoring dashboard for the West Java Transportation Agency, using Next.js to visualize and manage operational data efficiently.
- Built a research data management dashboard for Politeknik PU, leveraging React.js and TypeScript to ensure scalability, type safety, and maintainable code.

Fullstack Developer – Human Initiative

February 2024 – July 2024

- Built a disaster information website and aid management dashboard for the West Java region.
- Focused on UI clarity, accessibility, and real-time data presentation using Next.js and Firebase.
